

# LIQUID SEAL™

Fabric-To-Frame Adhesive

Applying Liquid Seal to bond fabric to frame. Mesh is stretched on A.W.T.'s Stretch-Lok™ manual screen stretching system.

SUPPLIES

## ADVANTAGES

- **Fast Drying**—Liquid Seal bonds fabric to frame in minutes
- **Water and solvent resistant**—Use Liquid Seal with all fabrics, frames and dip tank applications
- **Flexible and Strong**—You can stretch four or five layers of mesh on a frame before stripping it off with Solvent TH-660™
- **Extended Shelf Life**—The shelf life of mixed Liquid Seal can be extended for approximately two weeks with Solvent TH-660

A.W.T.'s Liquid Seal™ is a flexible and strong adhesive product with multiple applications in your screen making department.

### Fabric-to-Frame Adhesive

Bonds all fabrics to any wooden, metal or plastic frame.

### Screen Frame Sealer

Extend the life of your wooden frame. Brush or dip the frame and completely cover the wood with Liquid Seal to water-proof the wood and eliminate warping.

### Permanent Blockout

Use Liquid Seal on your screen as a permanent blockout.

### Heat Sealable Laminating Adhesive

Liquid Seal can be heat sealed and used as a laminating adhesive for most plastics.

# LIQUID SEAL™

## Fabric-To-Frame Adhesive

### Product Information

A.W.T.'s Liquid Seal is a strong and flexible adhesive product with multiple applications in your screen making department. Liquid Seal can be used to affix fabric to frames; to seal wood frames; to block out screens; and to eliminate ink seepage. Also suitable for use as a heat-sealable laminating adhesive for most plastics.

Liquid Seal is not affected by most screen printing solvents and can be used in dip tank applications. A.W.T. offers a range of products and accessories for use with Liquid Seal, including Solvent TH-660, squeeze applicator bottles, and plastic spreaders/scrapers.
