

POWER-KING™ 2

*Moving Ahead
With Technology*

High-Pressure Screen Washers

**Power-King 2
PK-1200**

**Power-King 2
PK-1300**

ADVANTAGES

- Up to 2,000 psi
- Corrosion-resistant stainless-steel cover
- Steel-reinforced rubber hose
- 36" stainless-steel wand
- Detergent container provided for additional applications
- Water-pressure controls minimize water consumption
- Two models offer high-pressure washing for every type of shop

A.W.T.'s new Power-King™2 High-Pressure Screen Washers are the industry standard in screen cleaning units, delivering up to 2,000 psi of directed spraying power and an output of up to 3.2 gallons per minute. Both Power-King 2 models are built to provide optimum, long-lasting and maintenance-free performance.

An excellent addition to the Kleen-View™ series of washout sinks, the Power-King 2 units will efficiently remove unexposed emulsion, hardened direct emulsions, blockouts and water-soluble films from polyester, stainless-steel, nylon, silk or other meshes. Power-King washers can also be used for degreasing screens.

THE POWER-KING™ 2 SERIES OF HIGH-PRESSURE SCREEN WASHERS

Two Powerful Models for Every Application

PORTABLE POWER-KING™ 2

The PK-1200 stainless-steel pressure washer blasts 1,200 psi at 1.8 gallons per minute from its compact design. This washer is designed for easy mobility in tight locations. The variable-pressure nozzle adjusts from 150 to 1,200 psi.

A Triplex plunger pump in oil bath assures smooth operation. Stainless-steel features, including the cover, chassis and 3' wand, along with the steel-reinforced rubber hose, make this portable Power-King extremely durable.

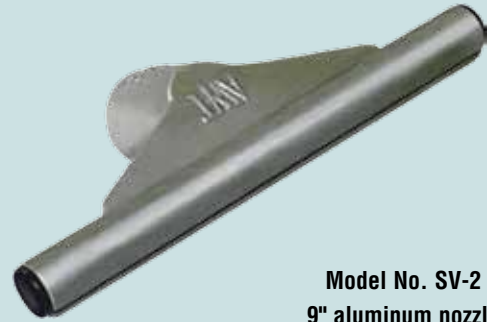

Heavy-Duty Power-King™ 2

The PK-1300, heavy-duty pressure washer delivers 1,000 psi at 2.2 gallons per minute. This model is mounted on wheels for easy handling and storage. Solid construction -- featuring corrosion-resistant stainless-steel housing, steel-reinforced rubber hose and 3' stainless-steel wand -- gives you a long-lasting rugged screen washer. Precise cleaning control is achieved with a variable-pressure nozzle adjustable from 150 to 1,000 psi.

ALUMINUM NOZZLE

Speeds Drying Time by Removing Excess Water

Increase your productivity with this angled, heavy-duty 9" aluminum nozzle. Trouble-free, lightweight and rust-proof, the nozzle fits 1-3/8" O.D. hoses and almost any wet-dry vacuum. Milled smooth to prevent screen damage, this nozzle is the perfect companion to the Power-King 2 Screen Washers!
