

Mobile, Adjustable Horizontal Screen Frame Storage Rack

* New with More Standard Features!

- Three drying racks in one!
- Adjustable shelf widths!
- Holds screens anywhere from 15"-46" in width!
- New locking casters to stabilize the unit!

Safe, Convenient and Mobile Storage for Screen Frames and Other Products!

ADVANTAGES

- Versatile rack for safe drying and storage of screen frames and other flat rigid products
- Deeper shelves, adjustable widths hold as many as 25 parts up to 2.25 inches (5.7 cm) thick
- Now fully adjustable width from 15" to 46" wide
- Mounted on locking casters for superior transport and additional stability
- Minimizes shipping costs due to disassembled delivery
- Simple, easy and speedy assembly
- A diversified tool with numerous uses including drying, storing or transporting flat objects
- Promotes improved organization and efficiency

Saturn's newly re-engineered Rollin' Screen Racker™ helps increase efficiency and productivity while providing a safe place to dry or store screens or other flat rigid products.

The newly re-engineered Rollin' Screen Racker™ now combines three previous rack sizes in to one unit, accomodating varying widths from 15-46" (38-117cm). Also new to the unit is four locking casters, which enhance both mobility and stability.

This versatile rack features deep shelves — 31 or 40 inches (79 or 102 cm), depending on model — and adjustable widths to accommodate a broad range of products. The Rollin' Screen Racker's easy mobility makes it invaluable in organizing production under the most restrictive shop configurations. For example, screens can be exposed in one area, moved to another for drying, then transported to the printing area when ready. Jobs can be staged, with screens left on the Rollin' Screen Racker until needed on the press.

A full schedule of jobs can be stored on multiple Rollin' Screen Rackers and wheeled into the press area when needed for production.
